

Colourful Insights™ into leading a team

Leadership is one of those things that's often awfully hard to define but you know it when you see it, and you definitely know when it's missing.

What's in this course for you?

This is a highly interactive and engaging workshop designed to empower leaders to recognise, harness and develop the individual and collective talents of their team.

You'll be introduced to the internationally acclaimed *True Colours™ metaphor*: an easy to understand communication tool which, once you attend this workshop, is guaranteed to remain indelibly etched into your mind and change the way you interact with others forever.

True Colors™ (USA) has been used by hundreds of international companies like Ford, Pfizer, Kraft and Boeing, Microsoft and Disney to transform their interaction with customers and colleagues.
